PROJECT(S)

ALASSO | WEBSITE
DEC/22 - FEB/23 | Mohali

- Alasso is an online educational community that was founded as an online platform that helps young students to get answers for reference and study materials for the preparation of exams, worksheets, certification courses especially in the engineering stream.

- Features like ongoing coding contest, best videos on internet to enhance skills, roadmaps to learn new technologies, answer helpers are introduced.

- Tech Stack - MongoDB, Node, Express, React.
(GITHUB - https://github.com/HamkerLokie/Alasso-tech)
(Website - https://alasso.tech)

UNIRIDE | WEBSITE
Mar 2023 - Present | Mohali

- UNIRIDE is the ultimate solution for students who live outside their college and need an affordable and efficient way to commute. Our platform connects students AND faculties who are traveling to the same destination, allowing them to share safe rides and reduce transportation costs and avoid frequent auto accidents

- Exciting features like, Group Rides, Live Location, Advanced Search, In-App Payment, Easy Google Sign-up, Reward Program are being introduced.

- Tech Stack - React, MongoDB, Node, Express, etc.
